Research Interests

I have around ten years of research and development experience in computer systems, including machine learning systems, systems for video analytics, data storage, and distributed systems. My current research focus is on developing *efficient [networked] systems* for machine learning (ML) [inference]. During my PhD, I worked on designing an inference serving system for latency-sensitive video analytics applications by leveraging the strengths of various modern computing platforms, spanning end devices, the edge, and the cloud.

Professional Experience

- 2025 – **Machine Learning Performance Engineer**
eBay, Amsterdam, The Netherlands
Improving performance and efficiency of ML systems and models.
- 2024 – **Guest Researcher**
Vrije Universiteit Amsterdam, The Netherlands
Worked in the HPDC group of the Computer Systems section.
- 2023 – 2024 **Postdoctoral Researcher**
Vrije Universiteit Amsterdam, The Netherlands
Worked in the HPDC group of the Computer Systems section.
- 2017 – 2018 **Principal Software Engineer**
Izel Technologies, Pune, India
Worked on a minimum viable product for source code analysis and code completion.
- 2017 – 2017 **Software Engineer**
WEBB Traders, Amsterdam, The Netherlands
C++ developer for developing the proprietary trading system.
- 2015 – 2015 **Research Assistant**
CNCR, Vrije Universiteit Amsterdam, The Netherlands
Wrote software to control the internally designed hardware to study rodent behavior.
- 2011 – 2014 **Software Engineer**
Symantec Corporation (now Veritas), Pune, India
Worked on veritas volume manager (VxVM), specifically on veritas volume replicator.

Education

- 2018 – 2023 **Ph.D. in Computer Science (Best ASCI Thesis Award 2023)**
Vrije Universiteit Amsterdam, Amsterdam, The Netherlands
Thesis title: *Latency-Critical Inference Serving for Deep Learning*
Advisors: prof. Henri Bal and prof. Lin Wang
- 2014 – 2016 **M.Sc. cum laude in Parallel and Distributed Computer System**
Vrije Universiteit Amsterdam, Amsterdam, The Netherlands
Thesis title: *Efficiently Detecting Use-After-Free Exploits in Multi-Threaded Applications*
Advisors: dr. Cristiano Giuffrida and dr. Erik van der Kouwe
- 2007 – 2011 **B.Tech. in Computer Science and Engineering**
Walchand College of Engineering, Sangli, India
Thesis title: *Enhanced Implementation of Evolutionary Optimization Service Times in IVRS*
Advisors: dr. B. F. Momin

Patents

- 1 **V. Nigade** and M. Soundalgekar, *Distributed replication in cluster environments*, US Patent 9,600,553, 2017.

Awards & Grants

May. 2024	🏆 Best ASCI PhD Thesis Award 2023 Awarded at CompSys Dutch Conference 2024 for outstanding ASCI-aligned PhD research.
Dec. 2022	🏆 Outstanding Paper Award, IEEE RTSS
Mar. 2022	🏆 NVIDIA Academic Hardware Grant Two A30 tensor core GPUs.
2014 – 2016	🏆 VUFP Scholarship, Vrije Universiteit Amsterdam, The Netherlands A full merit scholarship for strongly motivated students.
2011 – 2014	🏆 Seven employee awards at Symantec Corporation, Pune, India Including innovation awards, customer-centric awards, and the best study paper award.

Awards & Grants (continued)

2007 – 2011  Four programming and project competition awards during B.Tech.

Open Source

DP-DP Algorithm		Fast, Adaptive, and Optimal Tiling Algorithm for Real-Time Video Analytics  https://github.com/vuhpdc/dp-dp-algorithm
Jellyfish		Soft Real-Time Inference Serving System  https://github.com/vuhpdc/jellyfish
Clownfish		Edge and Cloud Symbiosis for Video Stream Analytics  https://github.com/vuhpdc/clownfish
DangSan		Efficiently Detecting Use-After-Free Exploits in Multi-Threaded Applications  https://github.com/vnigade/DangSan
Whisker		Software to control the operational characteristics of a behavioural apparatus  https://github.com/vnigade/Whisker

Academic Services

Technical Reviewer

2025		IEEE Transactions on Services Computing
Dec. 2023		IEEE/ACM UCC INTEL4EC
Apr. 2023		Digital Enablers of the Computing Continuum Systems, NWO ICT Open
Dec. 2022		IEEE/ACM UCC INTEL4EC

Thesis Supervision

Aug. 2022		Rishikumar Radhakrishnan, M.Sc. Project, Vrije Universiteit Amsterdam
-----------	---	---

Teaching

2020 – 2022  Teaching Assistant, Advanced Network Programming, Vrije Universiteit Amsterdam

Skills

Programming & Scripting Languages		C/C++, Python, Shell (Bash), Java (novice)
Frameworks & Libraries		Pytorch, Tensorflow, OpenCV, gRPC, Gstreamer
Version Control Systems		Git, CVS (a long time back)
Editors & IDEs		Vim, VS Code
